

Lampyres 'H2O' Blanc 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 75% Grenache Blanc, 25% Grenache Gris

Average Vine Age: Grenache Blanc (15 years), Grenache Gris (6 years)

Altitude: 115 feet (35m)

Soils/Terroir: Schist

Farming: Organic

Harvest: Hand harvested

Yield: 30 hl/ha

Vinification: The Grenache Blanc and Grenache Gris were harvested on the same day and the whole bunches directly pressed. The juice was transferred to stainless steel tanks for fermentation. Spontaneous fermentation using only the naturally occurring indigenous yeasts. After the completion of malolactic fermentation, the juice was racked into fiber tanks for a short ageing.

Maturation: Aged 5 months in fiber tanks. A month prior to bottling the juice undergoes a light filtration and a low dose of sulfur added.

pH: 3.37

Total SO₂: 19ppm

Lampyres 'Harvest Moon' Rouge 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 50% Grenache Noir, 50% Mourvèdre (the Mourvèdre was sourced from an organic producer whose vines are planted alongside the Grenache Noir vines of the Domaine)

Average Vine Age: Grenache Noir (6 years), Mourvèdre (25 years)

Altitude: 115 feet (35m)

Soils/Terroir: An ancient riverbed of clay soil covered with stones.

Farming: Organic

Harvest: Hand harvested

Yield: 35 hl/ha

Vinification: The Grenache Noire and Mourvèdre were harvested on the same day and co-fermented in fiber tanks. The Grenache Noir was de-stemmed and the Mourvèdre was left whole bunch and layered in the tank (a destemmed layer of Grenache Noir, and a whole bunch layer of Mourvèdre. The grapes were pressed on the 7th day and transferred back to fiber tanks to complete fermentation. Only the naturally occurring indigenous yeasts were used, and the wine remained on the fine lees until bottling.

Maturation: Aged 5 months in fiberglass tanks on the fine lees. A month prior to bottling the juice was racked and a low dose of sulfur added. Bottled unfined and unfiltered.

pH: 3.74

Total SO2: 21ppm

Lampyres 'Point Triple' Blanc 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 40% Macabeu, 40% Grenache Blanc, 20% Muscat à Petits Grains

Average Vine Age: Macabeu (41 years), Grenache Blanc (6 years), Muscat à Petits Grains (7 years)

Altitude: 115 to 330 feet (35m-100m)

Soils/Terroir: The Macabeu and The Muscat à Petits Grains are planted on clay-limestone soils. The Grenache Blanc is planted on schist over a bed of clay-limestone.

Farming: Organic

Harvest: Hand harvested

Yield: 20 hl/ha

Vinification: The Macabeu and Grenache Blanc were harvested on the same day and the whole bunches macerated together for 7-days in a large stainless-steel tank. The whole bunches were pressed on the 8th day, and the juice transferred back to stainless-steel tank to complete fermentation. The Muscat à Petits Grains undergoes a 7-day whole bunch maceration in stainless-steel tank. The whole bunches were pressed on the 8th day, and the juice transferred back to stainless-steel tank to complete fermentation. Only the naturally occurring indigenous yeasts were used in the fermentation. The components were blended after the completion of malolactic fermentation.

Maturation: Aged 3 months in sandstone amphora and 5 months in fiberglass tanks. Prior to bottling a low dose of sulfur was added, and the wines are bottled unfined and unfiltered.

pH: 3.49

Total SO2: 21ppm

Lampyres 'Le Lundi au Soleil' Rosé' 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 34% Grenache Blanc, 33% Grenache Gris, 33% Grenache Noir (the grapes were sourced from an organic producer in the eastern sector of the Roussillon)

Average Vine Age: 80 years

Altitude: 131 feet (40m)

Soils/Terroir: Schist

Farming: Organic

Harvest: Hand harvested

Yield: 25 hl/ha

Vinification: The grapes were harvested together in mid-August and macerated whole bunch for 4 days in the same stainless-steel tank. Fermentation began spontaneously using only the naturally occurring indigenous yeasts. On the 5th day the grapes were pressed, and the juice transferred back to the stainless-steel tank to complete fermentation.

Maturation: Aged 5 months in stainless steel tanks. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfinned and unfiltered.

pH: 3.41

Total SO₂: 17ppm

Lampyres 'Soleil le Vent' Rouge 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 85% Syrah, 15% Muscat d'Alexandrie

Average Vine Age: Syrah (20 years), Muscat d'Alexandrie (20 years)

Altitude: 115 feet (35m)

Soils/Terroir: Clay-limestone soils (argilo-calcaire)

Farming: Organic

Harvest: Hand harvested

Yield: 25hl/ha

Vinification: The grapes were harvested together in early August, de-stemmed, and underwent a 4-day whole berry maceration in the same tank. Fermentation began spontaneously using only the naturally occurring indigenous yeasts. On the 5th day the grapes were pressed, and the juice transferred back to stainless steel tanks to complete fermentation. The wine was racked after the completion of malolactic fermentation.

Maturation: Aged 5 months in stainless-steel tanks. Prior to bottling a low dose of sulfur was added. Bottled unfiltered and unfiltered.

pH: 3.37

Total SO₂: 19ppm

Lampyres 'Margot' Rouge 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 50% Grenache Noir, 25% Carignan Noir, 25% Mourvèdre

Average Vine Age: Grenache Noir (40 years), Carignan Noir (7 years), Mourvèdre (18 years)

Altitude: 115 to 330 feet (35m-100m)

Soils/Terroir: The Carignan Noir and Mourvèdre are planted on schist soils, and the Grenache Noir is planted on clay-limestone soils.

Farming: Organic

Harvest: Hand harvested

Yield: 30 hl/ha

Vinification: The Carignan Noir and Mourvèdre are directly pressed upon arrival in the cellar and co-fermented in a large stainless-steel tank. The Grenache Noir undergoes a 7-day whole bunch maceration in fiber tanks. On the 8th day the Grenache Noir is pressed and transferred back to fiber tanks to complete fermentation. Only the naturally occurring indigenous yeasts were used for fermentation. The components were blended after the completion of malolactic fermentation.

Maturation: Aged 8 months in stainless-steel tanks. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfined and unfiltered.

pH: 3.54

Total SO₂: 23ppm

Lampyres 'Ubuntu' Maceration 2022

Region: Roussillon

Appellation: Vin de France

Grapes: 95% Grenache Gris, 5% Grenache Noir

Average Vine Age: Grenache Gris (5 years), Grenache Noir (40 years)

Altitude: 115 to 330 feet (35m-100m)

Soils/Terroir: The Grenache Gris is planted on schist soils over a bed of clay-limestone, and the Grenache Noir is planted on clay soils.

Farming: Organic

Harvest: Hand harvested

Yield: 40 hl/ha

Vinification: The Grenache Gris and Grenache Noir are harvested on the same day and undergo a 7-day whole bunch co-fermentation in fiber tanks. The grapes are pressed and transferred to sandstone amphora to finish fermentation. Only the naturally occurring indigenous yeasts were used, and the wine remained on the fine lees until bottling.

Maturation: Aged 5 months in sandstone amphora. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfined and unfiltered.

pH: 3.65

Total SO2: 11ppm

Lampyres 'Contre-Attaque' Rouge 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 50% Mourvèdre, 50% Grenache Noir

Average Vine Age: Mourvèdre (31 years), Grenache Noir (50 years)

Altitude: 115 to 165 feet (35m-50m)

Soils/Terroir: The Mourvèdre is planted on soils of clay-limestone and schist. The Grenache Noir is planted on clay-limestone soils.

Farming: Organic

Harvest: Hand harvested

Yield: 25 hl/ha

Vinification: For the Mourvèdre - 50% underwent a 5-day whole cluster maceration, and 50% was des-stemmed and whole berry macerated for 4 days. All the Mourvèdre was pressed on the 5th day and transferred to stainless-steel tanks to complete fermentation. The Grenache Noir underwent a 10-day whole cluster maceration in stainless steel tanks. The components were blended after the completion of malolactic fermentation. Only the naturally occurring indigenous yeasts were used in the fermentation.

Maturation: Aged 9 months in stainless steel tanks on the fine lees. 1 month prior to bottling a low dose of sulfur was added to the wine. The wines are bottled unfinned and unfiltered.

pH: 3.57

Sulfur: 15ppm total SO₂, 1ppm free SO₂

Lampyres 'Contre-Attaque' Rouge 2022

Region: Roussillon

Appellation: Vin de France

Grapes: 90% Mourvèdre, 5% Grenache Noir, 5% white juice from Point Triple

Average Vine Age: Mourvèdre (30 years), Grenache Noir (40 years)

Altitude: 115 to 165 feet (35m-50m)

Soils/Terroir: The Mourvèdre is planted on soils of clay-limestone and schist. The Grenache Noir is planted on clay soils.

Farming: Organic

Harvest: 75% hand harvested and 25% machine harvested - *Due to a misunderstanding with the harvest crew regarding the length of the contract, the Domaine was forced to machine harvest a portion of the Mourvèdre. Losing a quarter of the Domaine's highest production wine is not an option for a young estate of this size, and we wholeheartedly support this decision.*

Yield: 35 hl/ha

Vinification: For the Mourvèdre - 75% underwent a 5-day whole cluster fermentation, and 25% was crushed and macerated for 5 days. All the Mourvèdre was pressed on the 6th day and transferred to stainless-steel tanks to complete fermentation. The Grenache Noir underwent a 7-day whole cluster fermentation in fiber tanks before pressing. The components were blended after the completion of malolactic fermentation. Only the naturally occurring indigenous yeasts were used, and the wine remained on the fine lees until bottling.

Maturation: Aged 5 months in fiberglass tanks on the fine lees. Prior to bottling a low dose of sulfur was added to the wine. The wines are bottled unfined and unfiltered.

pH: 3.55

Total SO₂: 15ppm

LAMPYRES

Rivesaltes Roussillon

CONTRE-ATTAQUE
2022

Lampyres 'Des Sens' Blanc 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 17% Grenache Blanc, 17% Grenache Gris, 16% Grenache Noir, 50% Macabeu

Average Vine Age: 80 years for the Grenaches, and 35 years for the Macabeu

Altitude: 165 to 197 feet (50m-60m)

Soils/Terroir: Schist soils with a southern exposition for the Grenaches. Clay-limestone soils (argilo-calcaire) with a southern exposition for the Macabeu

Farming: Organic

Harvest: Hand harvested

Yield: 20 hl/ha

Vinification: The Grenache Blanc, Grenache Gris, Grenache Noir, and 75% of the Macabeu are directly pressed upon arrival in the cellar and co-fermented in stainless-steel tanks for 12 days. After the completion of malolactic fermentation, the juice is transferred to a new 20hl Foudre for ageing. The remaining 25% of Macabeu is whole bunch macerated for 15 days in fiber tanks, after which the grapes are pressed and transferred back to fiber tanks to complete fermentation. After the completion of malolactic fermentation, the juice is transferred to concrete tanks for ageing. Only the naturally occurring indigenous yeasts were used for the vinification of this wine.

Maturation: Aged 8 months, 75% in a new 20hl oak Foudre and 25% in concrete tanks. A month prior to bottling the components were blended and a low dose of sulfur added. Bottled unfinned and unfiltered.

pH: 3.36

Total SO₂: 25ppm

Lampyres 'Janséniste' Blanc 2023

Region: Roussillon

Appellation: Vin de France

Grapes: 60% Macabeu, 20% Malvoisie du Roussillon, 20% Grenache Blanc

Average Vine Age: Macabeu (80 years), Malvoisie du Roussillon (5 years), Grenache Blanc (15 years)

Altitude: 115 feet (35m)

Soils/Terroir: Schist

Farming: Organic

Harvest: Hand harvested

Yield: 15 hl/ha

Vinification: The Macabeu and Malvoisie du Roussillon were harvested together and blended at the press. After 1 night of cold settling, the juice was racked off the gross lees and transferred to sandstone (grès) amphoras for fermentation. The Grenache Blanc was harvested separately and whole bunch pressed. After 1 night of cold settling, the juice was racked off the gross lees and transferred to new 225L French oak barrels for fermentation. Only the naturally occurring indigenous yeasts were used in the fermentation.

Maturation: The components were aged separately for 9 months. The Macabeu and Malvoisie du Roussillon in sandstone (grès) amphoras, and the Grenache Blanc in new 225L French oak barrels. 1 month prior to bottling the components were blended and a low dose of sulfur added. Bottled, unfiltered and unfiltered.

pH: 3.4

Average Vine Age: Mourvèdre (16 years), Carignan (70 years), Syrah (30 years)

Altitude: 165 feet (50m)

Soils/Terroir: The Carignan and Syrah are planted on Schist and the Mourvèdre is planted on an old riverbed of clay-limestone (argilo-calcaire) and galets roulés.

Farming: Organic

Harvest: Hand harvested

Yield: 30 hl/ha

Vinification: The 3 grape varieties were harvested over 2 consecutive days, and the whole bunches direct pressed upon arrival in the cellar. Spontaneous co-fermentation in stainless-steel tanks using only the naturally occurring indigenous yeasts. After the completion of malolactic fermentation, the wine is racked and transferred back to stainless-steel tanks.

Maturation: Aged 4 months in stainless steel tanks. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfined and unfiltered.

pH: 3.45

Total SO₂: 29ppm

Lampyres 'Margot' Rosé 2020

Region: Roussillon

Appellation: Vin de France

Grapes: 33% Carignan Noir, 33% Carignan Blanc, 33% Grenache Noir

Average Vine Age: 50 years

Altitude: 165 feet (50m)

Soils/Terroir: Schist and clay-limestone (argilo-calcaire)

Farming: Organic

Harvest: Hand harvested

Yield: 25 hl/ha

Vinification: The grapes are harvested on the same day and the whole bunches are direct pressed upon arrival in the cellar. Spontaneous co-fermentation in fiberglass vats using only the naturally occurring indigenous yeasts. Racked and transferred to stainless-steel tanks after the completion of malolactic fermentation.

Maturation: Aged 6 months in stainless steel tanks. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfined and unfiltered.

pH: 3.20

Total SO2: 25ppm

Lampyres 'Margot' Rosé 2019

Region: Roussillon

Appellation: Vin de France

Grapes: 25% Syrah, 25% Carignan Noir, 15% Carignan Blanc, 15% Macabeu, 20% Grenache Noir **Average Vine Age:** 20 years

Altitude: 115 to 330 feet (35m-100m)

Soils/Terroir: Schist and clay-limestone (argilo-calcaire)

Farming: Organic

Harvest: Hand harvested

Yield: 35 hl/ha

Vinification: The Syrah and Carignan Noir are direct pressed upon arrival in the cellar and are co-fermented using only indigenous yeasts in a single stainless-steel tank. The Carignan Blanc, Macabeu and Grenache Noir undergo a 5-day maceration on the skins before pressing and are also co-fermented using only indigenous yeasts in a stainless-steel tank. After the completion of malolactic fermentation, the tanks are blended.

Maturation: Aged 4 months in stainless steel tanks. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfinned and unfiltered.

pH: 3.43

Total SO₂: 25ppm

Lampyres 'Contre-Attaque' Rouge 2021

Region: Roussillon

Appellation: Vin de France

Grapes: 75% Mourvèdre, 25% Carignan

Average Vine Age: Mourvèdre (25 years), Carignan (5 years)

Altitude: 115 to 165 feet (35m-50m)

Soils/Terroir: The Mourvèdre is planted on soils of clay-limestone (argilo-calcaire), and the Carignan is planted on schist.

Farming: Organic

Harvest: Hand harvested

Yield: 40 hl/ha

Vinification: The grapes were harvested together over 2 consecutive days. The Carignan was direct pressed upon arrival in the cellar and the juice transferred directly to fiberglass tanks. The whole clusters of Mourvèdre are placed in the same tanks as the direct press Carignan for a 5-day whole cluster maceration. On the 5th day the Mourvèdre clusters are pressed and transferred back to fiberglass tanks to complete fermentation. Only the naturally occurring indigenous yeasts are utilized for fermentation.

Maturation: Aged 4 months in stainless steel tanks. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfined and unfiltered.

pH: 3.30

Total SO2: 21ppm

Lampyres 'Contre-Attaque' Rouge 2020

Region: Roussillon

Appellation: Vin de France

Grapes: 100% Mourvèdre

Average Vine Age: 25 years

Altitude: 115 to 330 feet (35m-100m)

Soils/Terroir: Clay-limestone (argilo-calcaire)

Farming: Organic

Harvest: Hand harvested

Yield: 30 hl/ha

Vinification: The grapes are direct pressed upon arrival in the cellar and the juice is transferred directly to stainless steel tanks. Spontaneous alcoholic fermentation using only the naturally occurring indigenous yeasts.

Maturation: Aged 5 months in stainless steel tanks. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfinned and unfiltered.

pH: 3.31

Total SO2: 20ppm

Lampyres 'Contre-Attaque' Rouge 2019

Region: Roussillon

Appellation: Vin de France

Grapes: 100% Mourvèdre

Average Vine Age: 20 years

Altitude: 115 to 330 feet (35m-100m)

Soils/Terroir: Clay-limestone (argilo-calcaire)

Farming: Organic

Harvest: Hand harvested

Yield: 35 hl/ha

Vinification: The Mourvèdre undergoes a 5-day maceration, with approximately 20% of the grapes crushed and 80% whole berry. The grapes are then pressed, and the juice is transferred to stainless steel tanks where the alcoholic fermentation begins naturally using only indigenous yeasts.

Maturation: Aged 4 months in stainless steel tanks. Prior to bottling a low dose of sulfur is added to the wine. The wines are bottled unfined and unfiltered.

pH: 3.50

Total SO2: 20ppm

Lampyres 'Calentu' Rouge 2022

Region: Roussillon

Appellation: Vin de France

Grapes: 100% Grenache

Average Vine Age: 40 years

Altitude: 165 feet (50m)

Soils/Terroir: Schist soils over a bed of clay-limestone (argilo-calcaire)

Farming: Organic

Harvest: Hand harvested

Yield: 25 hl/ha

Vinification: Whole cluster fermented in stainless-steel tanks for 8 days. On the morning of the 9th day the grapes were pressed, and the juice transferred back to stainless-steel tanks to neutral vats to complete fermentation. Only the naturally occurring indigenous yeasts were used in the fermentation.

Maturation: Aged 3 months in stainless-steel tanks. Prior to bottling a very low dose of sulfur was added. Bottled unfiltered and unfiltered.

pH: 3.37

Total SO₂: 15ppm

Lampyres 'Calentu' Rouge 2021

Region: Roussillon

Appellation: Vin de France

Grapes: 100% Grenache

Average Vine Age: 40 years

Altitude: 165 feet (50m)

Soils/Terroir: Schist

Farming: Organic

Harvest: Hand harvested

Yield: 25 hl/ha

Vinification: Whole cluster fermented in stainless-steel tanks for 8 days. On the morning of the 9th day the grapes are pressed, and the press juice is combined with the free run juice in stainless-steel tanks to finish fermentation. Only the naturally occurring indigenous yeasts are used in the fermentation. Racked after the completion of malolactic fermentation.

Maturation: Aged 9 months in Amphora (50%) and stainless-steel tanks (50%). Prior to bottling a very low dose of sulfur was added. Bottled unfined and unfiltered.

pH: 3.4

Total SO₂: 25ppm

Lampyres 'Soleil le Vent' Rouge 2022

Region: Roussillon

Appellation: Vin de France

Grapes: 70% Syrah, 30% Muscat à Petits Grains

Average Vine Age: Syrah (32 years), Muscat Petits Grains (6 years)

Altitude: 115 feet (35m)

Soils/Terroir: Schist soils for the Syrah, and Clay-limestone soils (argilo-calcaire) for the Muscat Petits Grains

Farming: Organic

Harvest: Hand harvested

Yield: 30hl/ha

Vinification: The grapes were harvested together in early August and underwent a 4-day whole bunch maceration in the same tank. Fermentation began spontaneously using only the naturally occurring indigenous yeasts. On the 5th day the grapes were pressed, and the juice was transferred to amphora to finish the fermentation. After the completion of malolactic fermentation, the wine was transferred to stainless steel tanks for a short maturation.

Maturation: Aged 2 months in stainless-steel tanks and bottled at the end of October. Prior to bottling a very low dose of sulfur is added to the wine. Bottled unfiltered and unfiltered.

pH: 3.83

Total SO₂: 19ppm

Lampyres 'Soleil le Vent' Rouge 2020

Region: Roussillon

Appellation: Vin de France

Grapes: 35% Syrah, 30% Carignan, 30% Macabeu, 5% Muscat Petits Grains

Average Vine Age: Syrah (30 years), Carignan (30 years), Macabeu (30 years), Muscat Petits Grains (4 years)

Altitude: 115 feet (35m)

Soils/Terroir: Schist soils for the Syrah, Carignan and Macabeu. Clay-limestone soils (argilo-calcaire) for the Muscat Petits Grains

Farming: Organic

Harvest: Hand harvested

Yield: 25 hl/ha

Vinification: The grapes were harvested together in early August and underwent a 15-day whole bunch maceration in the same tank. The grapes are then pressed, and the juice is transferred to stainless steel tanks to finish the fermentation. Only naturally occurring indigenous yeasts are used.

Maturation: Aged 2 months in stainless-steel tanks and bottled at the end of October. Prior to bottling a very low dose of sulfur is added to the wine. The wines are bottled unfined and unfiltered.
